West Moore Lake Drive Trail and Street Resurface Project

If you would rather receive these notices electronically, please email Beth Kondrick at beth.kondrick@fridleymn.gov to be added to the project notification list. You can also go on our project website fridleymn.gov/1337 to see the latest updates as well.

Construction Update

A summary of construction to be expected this upcoming week on West Moore Lake Drive is as follows (note that dates are subject to changes due to weather, etc.):

Week of June 17:

- Grading the roadway/trail

The contractor will continue to rough grade the roadway and trail during the gravel road period while working towards getting to final grade.

- Storm sewer work

This work includes removing existing catch basins/manholes and storm pipe along the west side of West Moore Lake Drive. The contractor will then install new catch basins and storm pipe along the new curb line where the curb is being bumped out.

- Electrical work

This work includes installing new trail light bollards (4 foot post with a light on top) in front of the high school along the west side of the trail.

Upcoming Construction Events

Week of June 24:

- Installation of concrete (curb & gutter and sidewalk) ***Concrete curing for five days after placement***
- Prepare roadway for base asphalt pavement

Week of July 1:

- Continue preparing roadway for base asphalt pavement
- Pave base asphalt

Parking

We ask that you do not park cars on West Moore Lake Drive in construction areas from 7 a.m. to 7 p.m., Monday-Friday to allow for the contractor to have the space needed to complete the project. Street parking causes delays for the contractor and increases the risk of damage to your personal vehicles. Please let us know as soon as possible if you plan on hosting any events (graduation, birthday, holidays, etc.) and we will do our best to work with our contractor to avoid any major inconveniences.

We also ask that you refrain from watering your lawn in areas where if the runoff could go onto the new concrete or gravel road.

Our project engineer, Brandon Brodhag, can be reached at (763) 238-8086 if you have questions.

See the project webpage at fridley.mn.gov/projects or contact the City of Fridley Engineering Division at (763) 572-3554 if you need additional information. You may view a project map and sign up for updates to be emailed to you!
