

## West Moore Lake Drive Trail and Street Resurface Project

### Construction Update

A summary of construction to be expected this upcoming week on West Moore Lake Drive is as follows (note that dates are subject to changes due to weather, etc.):

Week of June 24:

- Install curb and gutter (Slated for Monday, June 24)

The contractor will be placing concrete curb and gutter along the west side of West Moore Lake Drive from Medtronic Parkway to the south side of the high school. They will also be placing concrete curb and gutter in the spot repair sections that were removed on the east side of West Moore Lake Drive.

#### **Please Note:**

If curb has been removed from the front of your driveway, **please park vehicles on adjacent streets (58<sup>th</sup> Ave, Marigold Terrace, or 59<sup>th</sup> Ave) prior to Monday, at 7:00 a.m.** We ask that you continue to park on those adjacent streets for **5 days** after installation to allow the concrete to cure. Please do not park your vehicles in the construction area or on West Moore Lake Drive, as it can limit access for construction equipment.

- Install concrete walk in front of the high school

This work includes installing a 10' wide concrete walk in front of the high school.

- Final grading for roadway/trail

The contractor will be doing the final grading of the roadway and trail along West Moore Lake Drive from Medtronic Parkway to the southern entrance of the high school to prepare for the base lift of asphalt.

### Upcoming Construction Events

Week of July 1: (No work planned from 7/4 through 7/7)

- Pave asphalt base

Week of July 8:

- Pave Trail
- Mill pavement from South side of High School to 61<sup>st</sup> Ave on West Moore Lake Drive
- Raise manholes to final grade
- Start restoration

## Parking

We ask that you do not park cars on West Moore Lake Drive in construction areas from 7 a.m. to 7 p.m., Monday-Friday to allow for the contractor to have the space needed to complete the project. Street parking causes delays for the contractor and increases the risk of damage to your personal vehicles. Please let us know as soon as possible if you plan on hosting any events (graduation, birthday, holidays, etc.) and we will do our best to work with our contractor to avoid any major inconveniences.

We also ask that you refrain from watering your lawn in areas where if the runoff could go onto the new concrete or gravel road.

Our project engineer, Brandon Brodhag, can be reached at (763) 238-8086 if you have questions.

See the project webpage at [fridley.mn.gov/projects](http://fridley.mn.gov/projects) or contact the City of Fridley Engineering Division at (763) 572-3554 if you need additional information. You may view a project map and sign up for updates to be emailed to you!
