

# 4-H Environmental Clubs Springbrook Nature Center

Join us on **SATURDAY, NOVEMBER 9** to learn about the environment through engaging, hands-on activities!

This NEW club is for youth in K-one year post high school and will explore environmental education through interactive learning experiences that engage youth in environmental topics! These experiences will connect youth to nature and give them tools to make meaningful impacts in their community and the world. Older youth will be engaged in meaningful leadership roles. E-Club participation is **FREE!**

This club is based out of Springbrook Nature Center, meaning we will be able to explore the great outdoors! Club activities may include snowshoeing and hiking, learning about recycling and composting, native plants and pollinators, animals, and more. Topics will be guided by club interest, so if you have something you are passionate about, bring it to the club to share 😊.

### Questions? Want to join or volunteer? Connect with me!

Alyssa Armstrong, E-Club Leader and MN GreenCorps Member serving with Anoka County 4-H Youth Development
