

2021 Street Rehabilitation Project

Construction Update

August 20, 2021

Concrete Curb and Driveways:

If curb has been removed from the front of your driveway, **please continue to park vehicles outside of the gravel street sections, or on an adjacent street prior to 7:00 a.m. this upcoming week.** Note new concrete driveways will require **7 days** of curing after installation.

Street Grading:

Monday, August 23rd, the project area will be quiet to allow the new concrete to cure. On Tuesday, the contractor will focus grading efforts on gravel street sections in preparation to paving the first lift of asphalt on Friday. As a reminder, we ask that **no vehicles be parked on the gravel streets during working hours.** This gives the contractor room to work more efficiently.

Boulevard Restoration:

The contractor will begin restoring the boulevard areas disturbed during construction mid-next week. This phase of work involves light grading, irrigation repair, placing topsoil and seeding.

Note that the schedule is weather dependent and may be subject to change.

Stay Connected:

As a reminder, there will be no hard-copy updates delivered for this project. The City will be posting all project updates and notifications on the 2021 Street Project page at the following location:

<https://www.fridleymn.gov/1561/2021-02-Street-Rehabilitation-Project>

Resident Access

Residents will have access to their driveways during construction except when major construction events are occurring on their street. The City and Contractor will collaborate in minimizing the inconvenience to residents during construction. Please keep in mind that this type of construction may generate noise, dust and mud. Generally, it can be a disruption to the neighborhood, but we are working together toward a common goal.

Worksite Safety

Although it is tempting and interesting to watch, it is very important that residents, including children, remain out of the immediate work zone. Please remember to be safe and drive cautiously wherever you see construction workers, equipment and warning signs.

If you have an emergency, the City of Fridley's after hours contact is (763) 427-1212. This is an Anoka County Dispatch and they will direct your call.

www.fridleymn.gov

The contractor's hours will be from 7:00 a.m. to 7:00 p.m., Monday – Friday. There is potential for occasional work on Saturdays upon City approval. Additionally, the project covers a large area (2 miles). There may be times when you will not see continuous construction activity on your street. The contractor is likely in another area of the project.

Contact Information:

*Thank you in advance for your cooperation and patience during the project. The City of Fridley's onsite engineer, **Brandon Brodhag**, can be reached at **(763) 238-8086** if you have any questions, or concerns.*
