Virtual Neighborhood Information Presentation

2023 Street Rehabilitation Project No. ST2023-01

To: Property Owners and Residents

August 18, 2022

From: City of Fridley Engineering Division

The City is considering street and utility construction in your neighborhood in 2023.

To introduce you to our plans, City Engineering staff invites you to review a virtual neighborhood information presentation which provides additional details on the project area, proposed improvements, tentative schedule, construction process, and special assessments.

The presentation can be found on the Project webpage on the City's website here:

<https://www.ci.fridley.mn.us/1634/2023-01-Street-Rehabilitation-Project>

Additionally, included with this letter is a questionnaire focused on project-related topics including private irrigation/pet fences, in-home businesses, and existing drainage and utility concerns. We encourage you to complete the questionnaire as your feedback informs project design and aids in public coordination.

For the latest project information and to sign up for project notifications, please check the Project webpage. If you have any questions or comments following the project presentation, please call us at **763-572-3551** or email web-streetprojects@fridleymn.gov.

Thank you!
